Podgórze

Everyone needs a place to live.

A bed to sleep in, a school nearby, a tram to work. But where in Kraków?

| So many offers. Where do you even start?

Flat, flat, flat, flat...
but which neighbourhood?

WHAT A LISTING DOES NOT TELL YOU

-  How long is the trip to work or school?
-  Is the air clean? Is it quiet at night?
-  Are there nurseries, doctors, parks?
-  What do flats really sell for here?

WHAT EXISTS TODAY

Listing portals	Flats, not neighbourhoods
Address tools	One address at a time
Price sites	Numbers without the rest of life

Market scan, 3 October 2026: Otodom Analytics, MiejscoMetr, Locumo, Dobra Lokacja, PolandRent.

Credit line

REAL SCREEN

Behind every value: kind, date, source, method, licence, credit

- Every value is ☒ measured, ☐ estimated or ☐ approximate, with its caveat.
- District level, not address.** The data is not that precise, so we don't pretend.
- No price forecast.** Two methods lost to a naive baseline, so we show the history.
- “Recorded crimes per 10 000 residents”.** Never “safe” or “dangerous”.

AI writes the words. Code owns the numbers.

About the district

This report was written by artificial intelligence from the data.

Łągowniki-Borek Fałęcki scores 56.7 out of 100 on the livability scale, ranking 5 among Kraków's 18 districts. Its strongest point is green space, covering 25.4% of the district area (rank 2), and it has 2 shopping centres, or 0.4 per km² (rank 3). Air quality is also favourable, with an estimated annual PM2.5 mean of 17.2 µg/m³ (rank 3); this figure is calculated from monitoring data, not measured at address level. On the weaker side, night transit is limited at 190 departures per night (rank 14), the average distance to police, fire station and hospital is 2.2 km (rank 13, a proxy value calculated from other data), and the median asking rent is 66.7 PLN/m² (rank 13). The district has 15,168 registered permanent residents. Recorded-crime data is not included for this city.

What we brought, what we built here, what comes next.

BEFORE HACKYEAH · 29 SEP TO 2 OCT

- Data collection and the database for 18 districts
- Read-only data API, 16 operations, with tests

AT HACKYEAH · 3 AND 4 OCT

- The app: map, find, district, compare, feedback
- City service: personal AI summary, resident feedback
- Accessibility checks, documents, changelog

NEXT

- Run it on a city server
- Legal opinion: fees, AI transparency (EU AI Act, Art. 50)
- National login for verified feedback
- Data-sharing agreements for rents
- A second city

Our ask: let Kraków host GdzieZamieszkać as a free public service.
